MASSACHUSETTS
MEDICAL SOCIETY
ALLIANCE

860 Winter Street,
Waltham, MA 02451

The Voice for Physician Families

The Organization That Represents the Physician Family

MASSACHUSETTS MEDICAL
SOCIETY ALLIANCE

Making a Difference

Join a Network and Support System of People Who Understand the Physician Family from Training Years through Retirement

Our Members Participate in Activities That Help Meet Community Interest and Needs

The Massachusetts Medical Society Alliance is a dynamic organization of physicians' spouses, physicians, and friends committed to advancing the health and well-being of the family of medicine.

The Alliance, in partnership with the Massachusetts Medical Society, educates and promotes good health among the citizens of the Commonwealth of Massachusetts.

Membership opportunities include the following:

- Network and connect
- Leadership development
- Physician family support
- Legislative impact
- Educational programs
- Member publications

Join Us As We Make a Difference in Our Communities

Health Fairs

Provide a vast array of educational literature, bookmarks, stickers, keychains, coloring books, and more at community health fairs.

Handwashing

Teach children in schools and after-school programs about the importance of handwashing in preventing the spread of germs and illnesses.

SAVE Project

Join the American Medical Association Alliance campaign to **Stop America's Violence Everywhere** through local community initiatives.

Anti-bullying Campaign

Work with school nurses to distribute literature about bullying to prevent school violence.

Collaboration

Work with district and state medical societies on special initiatives such as the anti-tobacco poster contest for children grades one through six creating posters on the dangers of smoking.

Doctors' Day

Plan an annual event to celebrate the contributions of our physicians.

Make a Difference Day

Provide essential items to shelters housing survivors of domestic violence.

Legislative Advocacy

Learn about legislative issues of concern to the medical community and educate those around you.

Housing for Prospective Residents

Open your home to a medical student, resident, or fellow during his or her interview process.

We Focus Our Efforts in Four Major Areas

Legislation

The MMSA increases awareness of legislative issues affecting health care through frequent online updates and alerts, advocacy training, and educational workshops.

Health Promotion

Our volunteers work to promote healthy communities. The MMSA actively promotes initiatives for anti-tobacco, handwashing, and injury prevention awareness through helmet safety. We provide education in schools at health fairs and chef-led presentations about healthy eating choices. We are working diligently to increase awareness of the opioid crisis and physician burnout and well-being.

Foundations

We are committed to the MMS and Alliance Charitable Foundation, which awards grants for physician-led volunteer initiatives that provide access to care for the medically underserved, as well as community health initiatives that target public health issues.

Networking

Support medical families by recognizing needs, sharing common experiences and interests and providing educational and social networking events. Our members understand medicine, medical issues, and the medical family at all ages of the medical practice from training years to retirement.
